REASONS FOR ALLOWANCE

An agreement was reached 06 September 2007 on the necessary claim language to define the present invention over the combined references of Mabry and Jorgensen. The basis for the agreement is set forth in the Amendment dated 12 September 2007. Jorgensen falls far short of teaching the claim limitation. Additionally, the Examiner does not have teachings showing the particle shapes that are used in the rubber bales of the present invention, nor does the Examiner have any references other than Mabry which disclose bales of rubber having a high Mooney viscosity and which are compressed to low void volumes as are set forth. Specifically, Mabry does not disclose the claimed void volumes or the particle shapes in the bale. Accordingly, the claims are allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerrold Johnson whose telephone number is 571-272-7141. The examiner can normally be reached on 9:30 to 6:00 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on 571-272-4562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
